- There are two segments marked in paint on both sides of North O'Brien Road measuring approximately 1,500 feet beginning at US Highway 27.

The areas have been marked in pink paint on the roadway indicating the limits of the work area. The vendor is strongly encouraged to perform a site visit to provide an accurate estimate. There may also be markings within the limits of the work area depicting special instructions for a particular area. The vendor shall insure that they are aware of and adhere to these special instructions. All measurements given within this RFP are for center line, one way only. The work shall take place as specified by the markings on the pavement.

The vendor shall be responsible for locating and preserving any sprinkler systems that may be in the work location. If the vendor does damage to any such system it shall be the responsibility of the vendor to repair the damage at no additional cost to the County.

If the vendor anticipates having to enter private property to complete the work, they shall have Attachment 5, Right of Entry form, completed and signed by the property owner prior to any work being performed on the property. The original signed form must be submitted to the Project Manager prior to any work commencing on said property.

**TECHNICAL REQUIREMENTS**

The specifications and procedures that the vendor shall embrace to complete the work are as follows:

1. The vendor shall grade and shape the roadside shoulder to provide for positive drainage. The areas shall be graded to a two (2) percent minimum cross slope leading away from the edge of the pavement to a distance of ten (10) feet. If for some reason the two (2) percent grade cannot be obtained, the vendor shall contact the County's Project Manager before continuing with the work. No work shall take place to such areas until approval and direction of the Project Manager is provided. The grading shall be accomplished in conjunction with matching any adjacent pavement, curb, sidewalk, and structure grades. It shall also include both the removal of material to alleviate high shoulder conditions as well as backfilling areas to eliminate any drop offs.
2. If the ground/turf that is adjacent to the roadway is above the surface of the roadway, the vendor shall be responsible to complete the work as outlined within these specifications.

If the ground/turf is more than one (1) inch below the surface of the adjacent roadway, the vendor shall be responsible to complete the work as outlined within these specifications.

3. When fill material is needed it shall be quality topsoil, free of noxious weeds and capable of supporting the growth of the sod that shall be installed. This fill shall be supplied by the vendor and it shall be their responsibility to provide hauling to the site. The vendor shall be allowed to use soil removed from high shoulders within the same project area. Prior approval from the County's Project Manager shall be obtained if the vendor proposes to bring in soil removed from high shoulders or another project site.
4. The reshaped ten (10) foot shoulder shall not be left with windrows, bermed, or clumped material. All shoulders shall have a smooth surface with a tapered transition into existing adjacent back slope grades. The back slope areas shall be transitioned into the reshaped shoulder at a minimum of a three to one (3:1) slope. Any areas that cannot be transitioned within the minimum three to one (3:1) slope shall be brought to the attention of the Project Manager. No work shall take place to such areas until approval and direction of the Project Manager is provided.
5. All areas that have either been excavated or filled shall be compacted to not less than 98% of maximum unit weight as determined by using the Modified Proctor Compaction test method T-180 per the American Association of State Highway and Transportation Officials (AASHTO). These tests shall be conducted by an independent testing laboratory approved by the County. There shall be a minimum of one (1) test taken every five hundred (500) feet on each side of the road, and it shall be a minimum of six (6) inches in depth. The vendor shall supply to the Project Manager copies of these reports showing the results of the density tests. If any of these reports indicate that the proper compaction was not achieved, the vendor shall re-compact the area for a distance of five hundred (500) feet on each side of the failing test area, and the vendor shall be responsible to have a new test completed at a location selected by the Project Manager. If sod has been installed over a failing test area, it shall be removed before the compaction work starts and shall be put back in place after the work has been completed.
6. All disturbed areas within the project area shall be re-sodded with the type of grass matching the adjacent area. Should no grass exist in the surrounding area, Bahia sod shall be used. The final evaluation of the sod after it is installed shall be so that the top mat of the sod is even with the top surface of the adjacent asphalt or other impervious surface, and with the existing turf on the back slope. Any sod not installed at this elevation shall be rejected and replaced by the vendor to the proper height at no additional cost to the County. The vendor shall also be responsible to install sod in any areas within the project site where there is no turf growing regardless if the vendor has not performed any grading in that area.
7. Sod shall be installed as the grading is completed. At no time shall the graded area be allowed to be without sod for more than twenty-four (24) hours from the grading

operation. Any areas left overnight with a drop off that is more than one (1) inch at the edge of pavement shall be clearly marked by the vendor with lighted barricades.

8. The vendor shall roll the sod using a lightweight turf roller to provide for a true and even surface without any displacement or deformation of the sod.
9. All sod shall be watered by the vendor until established. Established sod shall be defined as roots extending from the newly installed sod into the compacted soil to a stage that it is difficult to remove the sod.
10. All roadways shall be swept using a broom tractor or other means approved by the County's Project Manager before the areas are opened to motorized vehicles.
11. Any extra spoils collected from this operation shall become the property of the vendor and it shall be their responsibility to insure the proper disposal of this material. If the vendor intends to dispose of the spoils on private property, the vendor shall supply to the Project Manager an original letter from the property owner. This letter shall include an acknowledgement that the spoils can be deposited on their property, the owner's name, property address, telephone number, and the legal signature of the owner.

**1. INTENT OF CONTRACT DOCUMENTS**

- A. It is the intent of the contract documents to describe a functionally complete project (or portion thereof) in accordance with the contract documents. Any work, materials, or equipment that may reasonably be inferred from the contract documents as being required to produce the intended result shall be supplied whether or not specifically called for. When words which have a well-known technical or trade meaning are used to describe work, material or equipment, such words shall be interpreted in accordance with that meaning. Reference to standard specifications, manuals or codes of any technical society, organization or association, or to the laws or regulations of any governmental authority having jurisdiction over the project, whether such reference be specified or by implication, shall mean the latest standard specification, manual, code, law or regulation in effect at the time the work is performed, except as may be otherwise specifically stated herein.
- B. The contract documents and all referenced standards cited therein are essential parts of the contract requirements. A requirement occurring in one is as binding as though occurring in all. They are intended to be complementary and to describe and provide for a complete project.
- C. If drawings are provided, they intended to show general arrangements, design and extent of work. In the event of a discrepancy between or among the drawings, specifications or other contract document provisions, the vendor shall be required to comply with the provision which is the more restrictive or stringent requirement upon the vendor, as determined by the Project Manager.

**2. ERRORS AND OMISSIONS**

The vendor shall not take advantage of any apparent error or omission in the contract documents. If any error or omission appears in the contract documents, the vendor shall immediately notify the Project Manager in writing of such errors or omissions. In the event the vendor knows or should have known of any error or omission and fails to provide such notification, the vendor shall be deemed to have waived any claim for increased time or compensation the vendor may have had, and the vendor shall be responsible for the results and the costs of rectifying any such error or omission.

**3. EMERGENCIES**

- A. The vendor shall have a responsible person available at or reasonably near the County on a twenty four (24) hour basis, seven (7) days a week, who may be contacted in emergencies and in cases where immediate action must be taken to maintain traffic or to handle any other problem that might arise. The vendor's responsible person for supervision of emergencies shall speak and understand, both verbally and in writing, the English language. The vendor shall submit to the Project Manager, the phone numbers and names of personnel designated to be contacted in cases of emergencies. Included in this list shall be twenty four (24) hour contact phone numbers for all subcontractors, if

any, performing work under this agreement. This list shall contain the name of their supervisors responsible for work pertaining to this contract.

- B. In the event of an emergency affecting the safety or protection of persons, or the work or property at the project site or adjacent thereto, the vendor, without special instruction or authorization from the Project Manager is obligated to act to prevent threatened damage, injury or loss. The vendor shall contact the Project Manager as soon as possible by telephone and with written notice as soon as possible, but no later than twenty-four (24) hours after the occurrence of the emergency, if the vendor believes that any significant changes in the work or variations from the contract documents. If the Project Manager determines that a change in the contract documents is required because of the action taken in response to an emergency, a new Project Order form shall be issued to document the consequences of the changes or variations. If the vendor fails to provide written notice within the twenty-four (24) hour limitation noted above, the vendor shall be deemed to have waived any right it otherwise may have had to seek an adjustment to the contract amount or an extension to the contract time.

#### **4. COMPLIANCE WITH OCCUPATIONAL SAFETY AND HEALTH/ HAZARDOUS MATERIALS**

- A. Vendor certifies that all material, equipment, etc., to be used in an individual project meets all Occupational Safety and Health Administration (OSHA) requirements. The vendor further certifies that if any of the material, equipment, etc., is found to be deficient in any OSHA requirement in effect on the date of delivery, all costs necessary to bring the material, equipment, etc., into compliance with the aforementioned requirements shall be borne by the vendor. All standard equipment, work operations, safety equipment, personal protective equipment, and lighting required or mandated by State, Federal, OSHA, or Americans with Disabilities Act (ADA) regulations must be provided and used by the vendor and its employees.
- B. Any chemical item supplied under this contract shall be accompanied by a Material Safety Data Sheet (MSDS). The MSDS shall include the following information:
- a. The chemical name and the common name of the toxic substance.
  - b. The hazards or other risks in the use of the toxic substance, including the potential for fire, explosion, corrosiveness, and reactivity.
  - c. The known acute and chronic health effects of risks from exposure, including the medical conditions which are generally recognized as being aggravated by the exposure to the toxic substances.
  - d. The primary route of entry and symptoms of exposure.
  - e. The proper precautions, handling practices, necessary personal protective equipment, and other safety precautions in the use of or exposure to the toxic substances, including appropriate emergency treatment in case of overexposure;
  - f. The emergency procedure for spills, fire, disposal and first aid.
  - g. A description in lay terms of the known specified potential health risks posed by the toxic substance intended to alert any person reading this information.

required and its relation to any other work in the area, including possible interference from other site activities. Arrangement for vendor's inspection of facilities or sites and/or activity schedules may be secured from the user department. Failure to visually inspect the facilities or sites may be cause for disqualification of vendor on that individual project.

- B. Vendor shall furnish the Project Manager with every reasonable facility for ascertaining whether the work performed and/or materials used are in accordance with the requirements and intent of the specifications. If the Project Manager so requests, the vendor shall, at any time before final acceptance of the work, remove or uncover such portions of the finished work as may be directed. After examination, the vendor shall restore the uncovered portions of the work to the standard required by the specifications. Should the work exposed or examined prove unacceptable in the opinion of the Project Manager, the uncovering or removal, and the replacing of the covering or making good of the items removed, shall be at the vendor's expense. However, should the work exposed or examined prove acceptable in the opinion of the Project Manager, the uncovering or removing and the replacing or the covering or making good of the items removed, shall be paid for by the County.
- C. If during or prior to the operations, the Project Manager should fail to reject defective work or materials, whether from lack of discovery of such defect, or for any other reason, such initial failure to reject shall in no way prevent the Project Manager's later rejection when such defect is discovered, nor obligate the County to final acceptance or payment, and the vendor shall make no claim for losses suffered due to any necessary removals or repairs of such defects.
- D. If during or prior to the operations, the Project Manager rejects any portion of the work on the grounds that the work or materials are defective, the Project Manager will give the vendor notice of the defect. The vendor shall then have seven (7) calendar days from the date the notice is received to correct the defective condition. If the defect has not been corrected within seven (7) calendar days, the Project Manager will send a second written notice to the vendor giving the vendor another seven (7) calendar days to correct the defect. If the vendor fails to correct the deficiency within the second seven (7) calendar days after receipt of the notice, the County may take whatever action is necessary, including correcting the deficient work utilizing another vendor or terminating the contract.
- E. Should the vendor fail or refuse to remove and renew any defective material used or work performed, or to make any necessary corrections in an acceptable manner and in accordance with the requirements of the specifications, within the time indicated in writing, the County, will have the authority to cause the unacceptable or defective materials or work to be repaired, removed and replaced, as may be necessary, at the vendor's expense. Any expense incurred by the County, whether direct, indirect or consequential, in making the repairs, removals, or replacements, which the vendor has failed or refused to make, shall be paid for out of any monies due or which may become due the vendor, or may be charged against the contract bond, if any. A Change Order

will be issued, incorporating the necessary revisions to the contract documents, including an appropriate decrease to the contract amount. Such direct, indirect and consequential costs shall include, such as but not be limited to, costs of repair and replacement of work of others destroyed or damaged by correction, removal or replacement of work of the vendor's defective work and additional compensation due the County. The vendor shall not be allowed an extension of the contract time because of any delay in performance of the work attributable to the exercise by the County of the County's rights and remedies hereunder.

- F. When the United States Government or the State of Florida is to pay a portion of the cost of the project, the work will be subject to such inspection by Federal or State representatives as deemed necessary, but such inspections will in no case make the United States Government or the State of Florida a party to this contract.
- G. All work performed and all materials furnished shall be in reasonably close conformity with the tolerances indicated in the specifications. In the event the Project Manager finds the materials or the finished product in which the materials are used and not within reasonably close conformity to the specifications, the Project Manager will then make a determination if the work shall be accepted and remain in place. In this event, the Project Manager will document the basis of acceptance by a Change Order which will provide for an appropriate deduction as needed in the contract price for such work or materials as the Project Manager deems necessary to conform to the determination based on the Project Manager's professional judgment.

## **6. PROJECT MANAGER**

- . It is agreed to by the parties that the Project Manager will decide all questions, difficulties, or disputes, of whatever nature, which may arise relative to the interpretation of the plans, construction, prosecution and fulfillment of the scope of services and as to the character, quality, amount and value of any work done, and materials furnished, under or by reason of this Agreement. The Project Manager may appoint representatives as desired that will be authorized to inspect all work done and all materials furnished.

## **7. CONTRACT TIME AND TIME EXTENSIONS**

- A. Unless otherwise provided, contract time shall mean the number of consecutive business days from the commencement date noted in the properly executed purchase order to the date on which all work is to be completed. The vendor shall diligently pursue the completion of the work and coordinate the work being done on the project by its subcontractors and material suppliers, as well as coordinate the vendor's work with the work of other contractors so that the vendor's work or the work of others shall not be delayed or impaired by any act or omission of any act by the vendor. The vendor shall be solely responsible for all means, methods, techniques, sequences and procedures, as well as coordination of all portions of the work under the contract documents.

- B. Should the vendor be obstructed or delayed in the prosecution of or completion of the work as a result of unforeseeable causes beyond the control of the vendor, and not due to the vendor’s fault or neglect, the vendor shall notify the Project Manager by telephone as soon as possible and in writing within two (2) business days after the commencement of such delay, stating the cause or causes thereof, or be deemed to have waived any right which the vendor may have had to request a time extension.
  
- C. If the vendor complies with the two (2) business days notice requirement, the Project Manager will ascertain the fact and the extent of the delay being claimed and recommend an extension to the contract time when, in the Project Manager’s sole judgment, the findings of fact justify such an extension. The vendor shall cooperate with the Project Manager’s investigation of the delay by providing any schedules, correspondence or other data that may be required to complete the findings of fact. Extensions to the contract time may be granted for only those delays which impact the vendor’s schedule. Extensions of contract time, if approved by the Project Manager, must be authorized in writing.
  
- D. Weather events are specifically excluded as excused cause for delay under this agreement and no additional days shall be given for rain days.
  
- E. The County and the vendor recognize that, since time is of the essence for this agreement, the County will suffer financial loss if the work is not completed within the time specified. The County will be entitled to assess, as Liquidated Damages, but not as a penalty, for each calendar day after the scheduled completion date the project continues. The project shall be deemed to be completed on the date the work is considered complete to the satisfaction of the County. The vendor hereby expressly waives and relinquishes any right which it may have to seek to characterize the Liquidated Damages as a penalty. The parties agree that the Liquidated Damages sum represents a fair and reasonable estimate of the County’s actual damages at the time of contracting if the vendor fails to complete the work in a timely manner. The Liquidated Damages shall be as follows:

<u>Specific Project Amount</u>	<u>Daily Charge Per Calendar Day</u>

C. County shall retain from the compensation to be paid to vendor the above described sum.

## 8. HOURS OF OPERATION

A. Unless otherwise specified in the technical specifications, all work performed shall be accomplished between the hours of 7:00 A.M. and 5:00 P.M., Monday through Friday, and no work shall be performed on Saturdays, Sundays, or County Holidays, unless permission to work has been requested in writing by the vendor and approval, in writing, has been granted by the Project Manager. Request for permission to work must be received by the Project Manager no less than two (2) days prior to the requested work day. The exception to this pre-approval requirement would be in the case of an emergency in which the emergency specification as outlined in General Terms and Conditions, Section 3, Emergencies, would apply. County Holidays are as follows:

New Year's Day  
 Martin Luther King, Jr. Day  
 Presidents' Day  
 Memorial Day  
 Independence Day

If the official holiday is on a Saturday the County observes the holiday on Friday and if the holiday is on Sunday the County observes the holiday on Monday. The vendor shall not be allowed to work on the alternate day for the above mentioned holidays. The Project Manager may consider approval in accordance with the provisions stated above, for work on the following days: Martin Luther King, Jr. Day, Memorial Day, Labor Day, Veterans Day, or the Friday after Thanksgiving.

D. When the vendor requests and is approved for Saturday, Sunday or Holiday work, the County may assess the vendor the sum of Two Hundred Fifty Dollars (\$250.00) per man per day for each Saturday, Sunday or recognized Holiday worked or planned to work. These fees will be deducted from the final invoice.

**9. CHANGES IN WORK**

- A. The COUNTY may at any time, by issuance of a Change Order executed in accordance with the COUNTY's Purchasing Policies and Procedures, make changes within the general scope of this Agreement. If additional work or other changes are required an offer will be requested from the vendor. Upon negotiation of the offer, execution and receipt of the Change Order, the vendor shall commence performance of the work as specified.
- B. The vendor shall not commence any additional work or other changes covered by the Scope of Services for the individual project without an executed Change Order. If the vendor performs additional work beyond the specific requirements of this Agreement without an executed Change Order, it shall be at the vendor's own risk. The COUNTY assumes no responsibility for any additional costs for work not specifically authorized by an executed Change Order.

**10. CLAIMS AND DISPUTES**

- A. Claims by the vendor shall be made in writing to the Project Manager within two (2) business days after the commencement of the event giving rise to such claim or else the vendor shall be deemed to have waived the claim. Written supporting data shall be submitted to the Project Manager within ten (10) calendar days after the occurrence of the event, unless the County grants additional time in writing, or else the vendor shall be deemed to have waived the claim. All claims shall be priced in accordance with the provisions of the section in this document entitled "Changes in Work".
- B. The vendor shall proceed diligently with its performance as directed by the County, regardless of any pending claim, action, suit, or administrative proceeding, unless otherwise agreed to by the County in writing. The County shall continue to make payments on the undisputed portion of the contract in accordance with the contract documents during the pendency of any claim.
  - a. Claims by the vendor shall be resolved in the following manner:
    - i. Upon receiving the claim and supporting data, the Project Manager will review the claim, or if the Project Manager is not a County employee, will forward the claim to the County. The County will within fifteen (15) business days respond to the claim in writing stating that the claim is either approved or denied. If denied, the County will specify the grounds for denial. The vendor shall then have fifteen (15) calendar days in which to provide additional supporting documentation, or to notify the County that the original claim stands as is.
    - ii. If the claim is not resolved, the County may, at its option, choose to submit the matter to mediation. A mediator shall be mutually selected by the parties and each party shall pay one-half (1/2) the expense of mediation. If the

County declines to mediate the dispute, the vendor may bring an action in the County or Circuit Court sitting in Lake County, Florida.

- b. Claims by the County against the vendor shall be made in writing by the Project Manager as soon as the event leading to the claim is discovered by the County. Written supporting data shall be submitted by the Project Manager. All claims shall be priced in accordance with the provisions of the section in this document entitled “Changes in Work”. The party to whom the Project Manager’s determination is not in favor of may appeal the determination as set forth in subsection (2) above.
- c. Arbitration shall not be considered as a means of dispute resolution.

## **11. LANDS FOR WORK AND ACCESS THERETO**

- A. County shall furnish and define the limits of land for access to the work site and for the site proper. No storage or equipment shall take place on private property unless the vendor has a letter from the landowner authorizing the vendor to do so. A copy of the letter shall be provided to the County. The vendor shall supply the Project Manager any such letter before the equipment is placed there. Any and all other lands required by the vendor shall be procured by the vendor at the vendor’s expense.
- B. As the work progresses, the vendor shall keep the site reasonably clear of rubbish, trash, waste, and other disposable materials on a daily basis. If the vendor allows the site to become littered and unsightly, any payments otherwise due may be withheld until the vendor cleans up the site to the satisfaction of the County. If the vendor fails to clean up the site, the County may choose to clean up the site at the vendor’s expense.
- C. The vendor shall, absent written permission from a private property owner, confine all storage of materials, equipment, and the operations of workers to the project site and land and areas identified in and permitted by the contract documents. The vendor shall assume full responsibility for any damage to any such land or area or to the owner or occupant thereof, or any land or areas contiguous thereto, resulting from the performance of the work. At the completion of the work, the vendor shall remove all debris, rubbish and waste materials from and about the project site, as well as all tools, appliances, equipment, machinery, and surface materials and shall leave the project site clean. All service and supply operations shall be conducted outside the clear zone unless the vendor has proper authorization and traffic control. No supply vehicles shall enter the median for any purpose. No service vehicles shall enter the median except when necessary to repair or remove inoperable equipment.
- D. Any equipment/material left within the rights of way shall be outside the clear zone. No equipment/material shall be parked overnight in the median.

**12. MAINTENANCE OF TRAFFIC (MOT)**

Unless otherwise specified, the standard specifications to be used for the work shall be the most applicable and the most stringent of the following:

- A. Maintenance of traffic shall be the responsibility of the vendor, is part of the vendor's bid price, and shall conform to F.D.O.T.'s most current editions of "STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION," 2010 edition or FDOT "ROADWAY AND TRAFFIC DESIGN STANDARDS," 2002 (or latest edition), or FDOT "MANUAL OF UNIFORM MINIMUM STANDARDS FOR DESIGN, CONSTRUCTION AND MAINTENANCE FOR STREETS AND HIGHWAYS," 2002 (or latest edition), Federal Highway Administration (FHWA) "MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES (MUTCD)," 2009 (or latest edition), and all supplemental specifications thereto. These documents can be ordered from F.D.O.T, Maps and Publications Department, 605 Suwannee Street, Tallahassee, Florida, 32399-0450, or by going to the F.D.O.T. website at: [www.dot.state.fl.us/mapsandpublications](http://www.dot.state.fl.us/mapsandpublications)
- B. All costs associated with MOT must be included in the vendor's bid price. No separate line items for MOT will be included in the cost estimate. If the vendor does not comply with the F.D.O.T. and the F.H.W.A (i.e. signs, qualified flaggers and/or barricades), the County reserves the right to direct the vendor to cease operation until deficiencies are corrected. In addition, no road closures shall be allowed except in the case of emergencies.
  - a. All lane closures shall have the prior approval of the Project Manager.
  - b. The foregoing requirements are to be considered as minimum and the vendor's compliance shall in no way relieve the vendor of final responsibility for providing adequate traffic control devices for the protection of the public and vendor's employees throughout the work area.
  - c. The use of public roads and streets by the vendor shall provide a minimal inconvenience to the public and traffic. Furthermore, if the vendor is utilizing the road by driving the slow moving equipment, the operator shall allow no more than three (3) vehicles to be backed up behind them at any time before pulling to the side to let traffic pass.

**13. UNDERGROUND UTILITIES**

Any required ground digging or subsurface work shall be done in accordance with Chapter 556, Florida Statutes. It shall be the responsibility of the vendor to have all underground utilities located before any work shall begin. This can be done by contacting Sunshine State One Call. They may be reached by calling 1-800-432-4770. The repairs of any damaged underground utilities as a result of the work being performed by the vendor shall be the responsibility of the vendor. The proper utility company shall be contacted immediately to expedite the repairs, if damage has occurred. The County

shall also be notified by telephone at the earliest opportunity and shall be followed up with a written explanation of the incident within two (2) days.

**14. PROTECTION OF EXISTING STRUCTURES, UTILITIES, WORK AND VEGETATION**

- A. The vendor shall preserve and protect all existing vegetation such as trees, shrubs and grass on or adjacent to the site which do not unreasonably interfere with the project as may be determined by the Project Manager. The vendor shall be responsible for all unauthorized cutting or damaging of trees and shrubs, including damage due to careless operation of equipment, stockpiling of materials or tracking of grass areas by equipment.
- B. The vendor shall fully protect the work from loss or damage and shall bear the cost of any such loss or damage until final payment has been made. If the vendor or any one for whom the vendor is legally liable is responsible for any loss or damage to the work, or other work or materials of the County or County's separate contractors, the vendor shall be charged with the same, and any monies necessary to replace such loss or damage shall be deducted from any amounts due the vendor.
- C. The vendor shall not disturb any benchmark established by the County with respect to the project. If the vendor, or its subcontractors, agents or any one for whom the vendor is legally liable, disturbs County benchmarks, the vendor shall immediately notify the Project Manager. The County shall have the benchmarks re-established and the vendor shall be liable for all costs incurred by the County associated therewith. Such costs shall be deducted from any amounts due the vendor.
- D. During the period of production of work and the warranty period the vendor shall be responsible for processing any and all claims for property damage and or bodily injury caused by the failure of the work including, such as but not limited to, motor vehicles or pedestrians. The vendor shall be responsible for the payment of all property damage and bodily injury claims and agrees to save and hold harmless the County from all such claims. Claims not handled by the vendor or their representative in the proper manner, will be settled by the County. The County shall recover all costs from the vendor.
- E. All items damaged as a result of vendor or subcontractor operations, such as but not limited to, sidewalks, seating, curbs, pipes, drains, water mains, pavement, mail boxes, turf, County sign or other property owned by the County or private landowner, shall be either repaired or replaced by the vendor, at their expense, in a manner prescribed by and at the sole satisfaction of the Project Manager. Any claims submitted to the County, such as but not limited to, from utility companies or landowners, which are determined to be the result of damage done by the vendor, shall be the responsibility of the vendor. The County reserves the right to pay any such claims and deduct such amount from the vendor's invoice. Repairs, or receipt of repairs, will be completed and submitted to the County prior to submission of the vendor's invoice for work accomplished. If the repair is not in accordance with County standards, the County shall repair the items and deduct the associated cost from the amount due the vendor.

- F. The vendor shall replace any asphalt that has been damaged as a result of hydraulics spilled from their equipment.
- G. Complaints shall be addressed within two (2) business days and a written report submitted to the Project Manager outlining actions taken to correct the complaint. The vendor shall notify the County immediately of any complaints given directly to the vendor.
- H. If in the course of completing work as part of this contract there is an accident that involves the public, the vendor shall as soon as possible inform the Project Manager of the incident by telephone. The vendor shall follow up in writing within two (2) business days of the incident. If Law Enforcement was involved and has written a report, the vendor shall forward a copy of the report to the Project Manager.
- I. The vendor shall be responsible for re-grading and re-sodding any areas that are disturbed by the vendor during the course of the work being completed.

## 15. EQUIPMENT

- A. The vendor shall furnish equipment of a type and quantity to perform the work satisfactorily within the time specified herein. The County reserves the right to inspect all equipment before it is placed in or while it is in service. If in the opinion of the Project Manager, the vendor has insufficient equipment on the job to satisfactorily complete the work within the required time, the vendor shall provide additional equipment as directed by the Project Manager. All equipment may be inspected and approved by the Project Manager before it is placed in service. If at any time, the Project Manager determines that any equipment is deficient in any way, the vendor shall remove the equipment from service immediately, and the equipment shall remain out of service until the deficiency is corrected to the satisfaction of the Project Manager. Inspection and approval of the vendor's equipment by the Project Manager shall not relieve the vendor of responsibility or liability for injury to persons or damage to property caused by the operation of the vendor's equipment, nor shall it relieve the vendor of the responsibility to meet the established time for the completion of the service.
- B. All safety devices installed by the manufacturer shall be in place and in proper working order at all times. At a minimum, all equipment used within the rights of way shall be equipped with a slow moving vehicle sign, properly operating amber flashing or white strobe light.
- C. The equipment used must be in good repair and operating condition at all times. This service requires that all equipment shall be environmentally safe, with no oil leaks, blowing fuel, or leaking hydraulic lines.

**16. SANITATION**

The vendor shall provide and maintain adequate sanitary conveniences for the use of persons employed for this project. These conveniences shall be maintained at all times without nuisance, and their use shall be strictly enforced. The location of these conveniences shall be subject to the Project Manager's approval.

**17. OTHER WORK**

- A. The vendor will cooperate with County personnel or anyone who may be engaged in authorized work prior to final completion of the project.
- B. The vendor shall cooperate with the owners of any underground or overhead utility lines in their removal and rearrangement operations in order that these operations may progress in a reasonable manner and that service rendered by these parties will not be interrupted.
- C. The County may perform other work related to the project site or, in the general vicinity of the site by the County's own forces, have other work performed by utility owners or other direct contracts. If other work is not identified in the contract documents and if the vendor believes that such performance will involve additional expense to the vendor or require additional time, the vendor shall send written notice of that fact to the County and the Project Manager within two (2) business days of being notified of the other work. If the vendor fails to send the above required notice, the vendor will be deemed to have waived any rights it otherwise may have had to seek an extension to the contract time or adjustment to the contract amount. The vendor shall afford each utility owner and other contractors (or the County, if the County is performing the additional work with the County's employees) proper and safe access to the site and a reasonable opportunity for the introduction and storage of materials and equipment and the execution of such work and shall properly connect and coordinate its work with theirs. The vendor shall not endanger any work of others by cutting, excavating or otherwise altering their work and will only cut or alter their work with the written consent of the Project Manager and the others whose work will be affected.
- D. If any part of the vendor's work depends, for proper execution or results, upon the work of any other contractor other than a subcontractor or utility owner, the vendor shall inspect and promptly report to the Project Manager, in writing within two (2) business days, any delays, defect or other problems in such other work that renders it impossible for the vendor to obtain proper execution or results. The vendor's failure to report will constitute an acceptance of the other work as fit and property for integration with the vendor's work.

**18. BONDS**

Not applicable to this solicitation.

**19. FINAL INSPECTION**

- A. Maintenance of Work. The vendor shall maintain all work in as-new condition until the final inspection is completed and the work accepted by the Project Manager.
- B. Upon notice from the vendor that the service has been completed, the Project Manager will make a final inspection within five (5) business days of receipt of notification. The Project Manager will notify the vendor if necessary of any deficiencies with the project. The vendor shall correct all deficiencies before final acceptance and payment is made. If the deficiencies have not been completed within the contracted time, the Project Manager may send out a notification notifying vendor of assessment of Liquidated Damages that can be applied for any day over the time allowed per the contract.
- C. The vendor shall notify the Project Manager when the deficiencies have been completed and corrected. If the deficiencies are not corrected when inspected, the vendor shall be notified again in writing about any deficiencies. Once the repairs have been corrected by the vendor, the Project Manager shall make another inspection. There shall be an eighty dollar (\$80.00) inspection fee assessed to the vendor for this inspection and any re-inspection that may be required after that. The fee is assessed to offset the additional costs associated with County labor and vehicle usage required for unnecessary inspections. The fee(s) shall be deducted from the final invoice for that release order.

**20. FINAL ACCEPTANCE**

- A. The contract will be considered complete when all work has been completed and has been accepted by the County and the Project Manager. The vendor will then be released from further obligation except as set forth in the warranty and/or bonds in this Contract.
- B. The County reserves the right, should an error be discovered in the partial or final estimates, or should proof of defective work or materials used by or on the part of the vendor be discovered after the final payment has been made, to claim and recover from the vendor or its surety, or both, by process of law, such sums as may be sufficient to correct the error or make good the defects in the work and materials, including any fees or costs associated with the additional services of the Project Manager.

**21. MEASUREMENT AND PAYMENT**

- A. All work completed under the terms of this contract shall be paid as established in Section 4, Pricing/Certifications/Signatures, Pricing Section.
- B. The vendor shall accept compensation provided under the terms of this contract as full payment for furnishing all materials and for performing all work contemplated and embraced under this contract. Such compensation shall also be for any and all loss or damage arising out of the nature of the work or from the action of the elements, or from any unforeseen difficulties or obstructions encountered during the contract period until final acceptance by the County.

**22. SOD WARRANTY**

The sod shall be warranted to be free of noxious and invasive weeds, disease, and insects. If pest plants and/or noxious weeds manifest themselves within sixty (60) days of placement of the sod, the vendor shall treat affected areas. The process for treating these areas shall be approved by the Project Manager. If the sod does not meet any of the above specifications the vendor shall be responsible to replace it at no expense to the County. It shall be the responsibility of the vendor to insure that the sod is sufficiently established as previously described within these specifications. If the sod dies or does not become established the vendor shall be responsible for the replacement at no cost to the County.
