Answer 10: A permit will be required in this regard. The awarded vendor will be responsible for acquiring the permit to include any associated costs for doing so.

Question 11: There are some trees to be removed, where the building is coming out to the road, and also at the new site --to allow necessary room to place the building on the property. (1) Is this tree work included in the scope of work? (2) Who is responsible to clean up the debris?

Answer 11: As stated in the solicitation, the County is seeking a turn-key effort. All required tree removal will be the responsibility of the awarded vendor along with removal of associated debris as described in the specification. The specification states that all work sites are to be left in "tidy" condition. This direction excludes land restoration effort such as re-sodding.
