

- **THIRD DELIVERABLE**

- Develop schedule
- Action items
  1. A mitigation strategy that provides the jurisdiction's blueprint for reducing the potential losses identified in the risk assessment based on existing authorities, policies, programs and resources, and its ability to expand on and improve these existing tools. The Mitigation Strategy shall address FEMA's Floodplain Map Modernization Program and Repetitive Loss Initiative including: prioritization of mitigation measures towards repetitive loss properties; fulfillment of CRS planning requirements, and FEMA's ongoing field and database verification projects for repetitive loss properties.
  2. A description of mitigation goals to reduce or avoid long-term vulnerabilities to the identified hazards.
  3. A plan section that identifies, evaluates, and analyzes a comprehensive range of specific mitigation actions and projects being considered to reduce the effects of each hazard identified, with particular emphasis on new and existing buildings and infrastructure.
  4. An action plan describing how the actions identified will be prioritized, implemented, and administered by the local jurisdiction. This Section shall include the implementation timeline, the funding sources or other resources that will be used to implement the strategy, when possible, and the agency or personnel responsible for carrying out these actions. For FEMA program funding these mitigation measures must be cost effective, environmentally sound and technically feasible. The local jurisdiction and the State must prioritize measures based on these criteria.
  5. Individual action items for each jurisdiction requesting FEMA approval of or credit for the Plan. For FEMA program funding these mitigation measures must be cost effective, environmentally sound and technically feasible. The local jurisdiction and the State must prioritize the measures based on these criteria.
  6. A plan section describing the method and schedule of monitoring, evaluating and updating the mitigation plan within a five-year cycle.
  7. A description of the process by which local jurisdictions incorporate the requirements of the mitigation plan into other planning mechanisms such as comprehensive or capital improvement plans, when appropriate.
  8. A discussion on how the community will continue public participation in the ongoing mitigation planning process.
- Third Deliverable due **JULY 31, 2004**
