Under Florida Statute Chapter 62-730.030(3), a conditionally exempt small quantity generator which chooses to send its hazardous waste to an off-site treatment, storage, or disposal facility will document delivery of its hazardous waste through written receipts and other **records which are retained for at least three (3) years**. The written receipts and other records will include names and addresses of the generator and the treatment, storage, or disposal facility, the type and amount of hazardous waste delivered and the date of shipment.

Lake County Environmental Outreach Program is administered by Lake County Board of County Commissioners and has been approved through the Florida Department of Environmental Protection. For further information on **Lake County Environmental Outreach Program**, please contact Lake County's Special Waste Section at 13130 Astatula Landfill Road, Tavares, FL 32778, telephone (352) 343-3776 ext. 234, 238 or 242.
