

N. Hancock Corridor Traffic Study

March 2012

The Project

The Lake County Board of County Commissioners, in cooperation with City of Clermont, City of Minneola, Lake Sumter Community College South Lake Campus, South Lake Hospital, Citizen Groups and Other Interested Parties along North Hancock Road, is conducting a Corridor Traffic Study to review traffic operations at seven intersections along North Hancock Road within the Cities of Clermont and Minneola. This Corridor Traffic Study will identify and evaluate safety and improvement alternatives for the intersections of N. Hancock Road with Turkey Farm Road, CR 50, North Ridge Blvd, Diamond Club Dr, Oakley Seaver, Daryl M. Carter Blvd and Legends Way.

Improvements being evaluated for safety and deficiencies include additional turn lanes, traffic operation, traffic signal, modification of driveways, access management, and median modifications.

Public Meetings

It is important to Lake County, the Cities of Clermont and Minneola that the interested public is provided opportunities for information exchanges. Throughout the course of the study, the public will have the opportunity to learn up-to-date information regarding the study, ask questions and interact with the Lake County Public Works Staff.

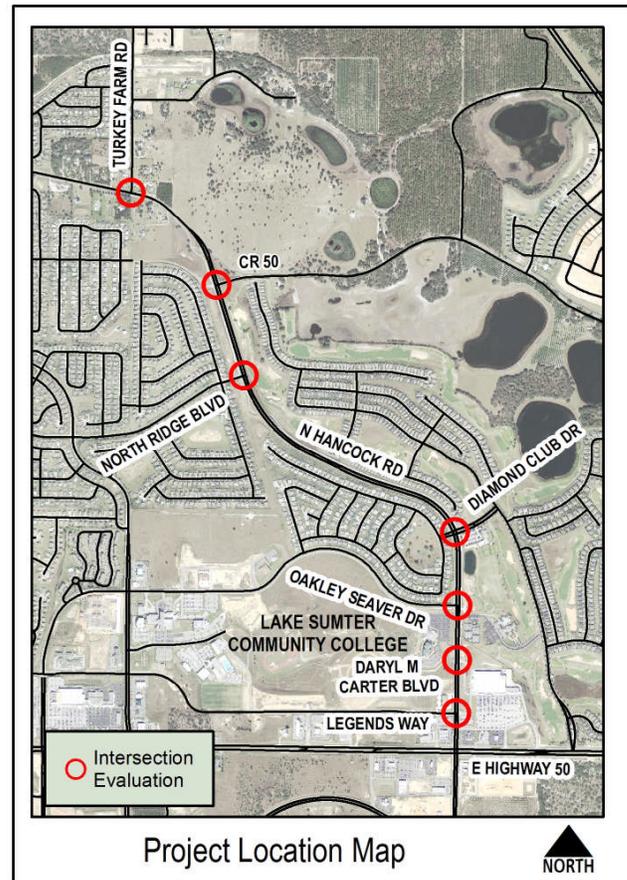

The time is right for you to talk with engineers and planners involved in this project and to let them know of your comments and concerns. The Lake County Board of County Commissioners Department of Public Works will be hosting a **Public Information Meeting on Monday, March 19, 2012** from at 6:00 p.m. to 8:00 p.m., at the Cooper Library Auditorium/Lake Sumter Community College South Lake Campus located at 2525 Oakley Drive, Clermont, FL.

Schedule

The project follows the outlined schedule shown below. Data collection efforts began in October 2011 and final recommendations will be presented to the Lake County Board of County Commissioners in May 2012. The project will conclude with improvement recommendations that can be constructed once funding becomes available.
