“Sustainability”?

Think Green. Think Waste Management.

Waste Management's Footprint

- 2009 annual revenues exceeded \$13.3 billion
 - **Ranked 196 on the April 2009 Fortune 500 list**
 - **\$20.2 billion in total assets and \$5.9 billion in equity**
- Serve 20 million customers and employ over 45,000 people
- Operate in 48 states, Canada, and Puerto Rico
- Focused on sustainability!

Think Green. Think Waste Management.

Goals for sustainable Performance by 2020:

- Double the amount of green energy we produce from waste to power 2 million homes.
- Improve fuel efficiency and reduce emissions of our fleet by 15%.
- More than double our volume of recyclables to 20 million tons per year.
- Quadruple our wildlife habitat sites to 100 certified sites.

Think Green. Think Waste Management.

By 2020 the impact from our efforts will be:

Develop a more efficient reverse supply chain to make beneficial use of end of life materials:

- Recover more end of life materials to place back into the supply chain.
- Increase the conversion of waste into renewable energy.
- Help customers minimize waste by developing closed loop solutions.

Think Green. Think Waste Management.
