

# Residential Pre-power Request

(Not for Manufactured /Modular homes)

Date \_\_\_\_\_

Permit Number \_\_\_\_\_

Property Address \_\_\_\_\_

Although no Certificate of Occupancy has been issued by the County for the above referenced project, we hereby request an inspection for approval to turn on the electricity for the structure on a temporary basis.

We pledge that the structure will not be occupied until a Certificate of Occupancy has been issued.

We understand and agree as follows:

1. That this structure is not to be used or occupied prior to a final electrical inspection being completed and a Certificate of Occupancy being issued. If Lake County should find that the structure has been occupied before a Certificate of Occupancy has been issued, Lake County shall have the right to direct that the electricity be disconnected without notice. Furthermore, we understand and agree that should Lake County exercise such right, the County will not be held responsible for any damages or costs which result to either or both of us from the exercise of such right. Also, in the event any third party claims that they have been damaged by the exercise of such right, we agree to jointly or individually indemnify and hold harmless the County for all such damages and costs, including reasonable attorney's fees.
2. The building is weather tight and secure and all equipment and fixtures to be energized under this request have been inspected and approved. The electrical system shall be completed with all devices installed or safely terminated and blanked off.
3. Pre-power shall be approved for a maximum of 90 days, after which, if all inspections have not been obtained and a certificate of occupancy has not been issued, the power shall be turned off without notice unless an extension has been requested in writing and approved.
4. We acknowledge that the pre-power agreement is a privilege that can be revoked if a violation occurs. Reinstatement of this privilege will be determined by Lake County Building Division.
