Florida Statutes states that a person who signs a false affidavit is guilty of the crime of perjury by false written declaration, which is a felony of the third degree, punishable as provided by the Florida Statutes.

Explanation of “Affidavit of No Wetland Alteration”

No Alteration of Wetlands

Initials: _____

Date: _____

The purpose of the affidavit form is to assist the processing of building permits when no alternation of wetlands is proposed. Since all wetlands are contained within the 100-year floodplain, all applicants for building within this floodplain will be given this affidavit. If there will be no alteration of wetlands, the affidavit must be completed, signed, and notarized before issuance of the building permit.

Alteration of Wetlands

When the alteration of wetlands is proposed, the affidavit form is not used. Instead, the applicant must show proof of all applicable permits from the following permitting agencies:

- Florida Department of Environmental Protection Orlando (407) 894-7555
- St. Johns River Water Management District Orlando (407) 659-4800
- Southwest Florida Water Management District Brooksville (352) 796-7211
- U.S. Army Corps of Engineers
 - East Lake County - Palatoka (904) 328-2736
 - West Lake County - Crystal River (352) 795-1078

These permits must be submitted to the county before construction activities take place or a building permit is issued. If you need to know if wetlands exist on your property, the agencies listed above or consultants can identify wetlands.
