This course is intended to train all personnel who may be assigned to large incidents in the critical aspects of major incident management and area command. Topics include unified command, major incident management, area command and multi-agency coordination.

Conducting a “closed” program allows management and executives of local organizations to work together, learn and exercise in a common environment.

This is an "Elective" course for the [FEMA Advanced Professional Series \(APS\) program.](#)

You must provide documentation of successful completion of the following Incident Command System Courses:

- [An Introduction to the Incident Command System \(IS-100.a\)](#)
- [Basic Incident Command System \(IS-200.a\)](#)
- [An Introduction to the National Incident Management System \(NIMS\) \(IS-700.a\)](#)
- [Intermediate ICS \(ICS-300\)](#)
