

Lake and Sumter County Emergency Management

Basic Incident Command System & An Introduction to the National Response Framework

- [IS-200.a: Basic Incident Command Systems \(ICS\)](#)
- [IS-800.b: An Introduction to the National Response Framework \(NRF\)](#)

This program is designed to educate on the key features of the National Response Framework (NRF) and Incident Command System (ICS).

During this program we will review the following:

NRF Key Concepts	ICS Features	
<ol style="list-style-type: none"> 1. Engaged partnerships 2. Tiered responses 3. Scalable, flexible and adaptable operational capabilities 4. Unity of effort through unified command 5. Readiness to act 	<ol style="list-style-type: none"> 1. Common terminology 2. Modular organization 3. Management by objectives 4. Incident Action Plan (IAP) 5. Manageable span of control 6. Incident facilities & locations 7. Comprehensive resource management 8. Integrated communications 	<ol style="list-style-type: none"> 9. Establishment & transfer of command 10. Chain of command & unity of command 11. Unified command 12. Accountability 13. Dispatch / deployment 14. Information & intelligence management

These programs are all available on-line; however, as adult learners we know that we retain only about 10% of what we read. This presentation is in a live interactive format that promotes retention and, more importantly, encourages the application of these key Homeland Security concepts in live incidents. These classes are all presented by the ICS Instructor Team of Lake and Sumter Counties.
