

Lake and Sumter County Emergency Management

Unified Command, Application of ICS and Applied Exercise

The purpose of this Unified Command training and scenario is to assist local geographical jurisdictions in succeeding in both large scale and time consuming incidents.

Everyone is welcome to attend any of these Unified Command programs and locations. If this program is held in your area, we strongly encourage departmental participation as you will be performing activities with like representatives of other local agencies. This assists all of us in meeting the NIMS guidelines regarding preparedness training across jurisdictional boundaries.

This presentation is in a live interactive format that promotes retention and, more importantly, encourages the application of these key Homeland Security concepts in live incidents. These classes are all presented by the ICS Instructor Team of Lake and Sumter Counties.

Thursday, June 26, 2008
Tavares Civic Center, TRA room, 100 E. Caroline Street
