## ADDENDUM NO. TWO July 31, 2015

### ITB 15-0632 Hauling Services for Waste Roll-off Containers for Lake County Landfill and Convenience Centers

It is the vendor's responsibility to ensure their receipt of all addenda, and to clearly acknowledge all addenda within their initial bid or proposal response. Acknowledgement may be confirmed either by inclusion of a signed copy of this addendum with the initial bid or proposal response, or by completion and return of the addendum acknowledgement section of the solicitation. Failure to acknowledge each addendum may prevent the bid or proposal from being considered for award.

This addendum does not change the date for receipt of bids or proposals.

Questions regarding this solicitation are due by 2:00 p.m. on August 5, 2015. The purpose of this addendum is to address additional questions received to date.

**Question 4:** One of the pricing section options is asking for the unit price per ton for each destination. Are you asking the hauler to submit a service trip price based on per ton of material taken to the disposal destination?

**Answer 4:** We are asking for rates based on tonnage and rates based on mileage. There will not be a combination of the two. The mileage rate will be the same for every load regardless of the tonnage for any load. If a per ton rate were chosen, the mileage rate would not apply and the hauler would be paid for the tonnage on each load. The tonnage varies so each load would be a different price charged by the hauler. If the mileage rate is chosen, each load would have the same price for hauling to each disposal site. This solicitation is for hauling only, the County will pay all disposal fees to the disposal site.
