Rural preservation.

5. What are your thoughts about the Lake County Comprehensive Plan process?

Various.

Seems to be on track.

Not very scientific. Need a funded strategic plan for commercial and industrial to be supported by residential, not vice-versa.

You are taking into consideration what the "squeaky wheel" minority has to say versus the silent majority.

Better than before.

Slow growth!

Not totally familiar with it but plan to learn more about it.

It sounds like you are addressing the issues.

6. Additional Comments:

Wish you luck. As always too much politics gets in the way.

Too much attention to feel good (no growth, low density) instead of real economic and controlled growth solutions. Complete disregard to property rights.

We have to have controlled growth to support what the public wants, i.e., better roads and jobs, schools, parks, and affordable housing for employees.

Please don't let Lake County become like Pinellas County!

Will follow.
