

BOARD ACTION

July 30, 2008

APPROVED	The Board moved to challenge the decision of the St. Johns River Water Management District regarding Niagra Bottling, LLC. The Board will discuss the funding of this at the next BCC meeting.	CADWELL
CONSENSUS	Mr. Sandy Minkoff, County Attorney, stated that there was an amenity called All Star Sports Camp that had developed a large facility without any permits or appropriate zoning, and he opined that he thought it was due to an inadvertent mistake. He mentioned that because it would require a zoning change, they would be a minimum of three months away from acquiring that. He related that the Growth Management staff has suggested working with them to allow them to continue to operate while they went through the permitting processes, as long as they determine that they meet basic life-safety codes. The Board gave consensus for that course of action.	MINKOFF
