THE PLEDGE TO ELIMINATE DRUNK DRIVING

Every year, nearly 13,000 people are killed by drunk drivers with an illegal alcohol level of .08 BAC or above. That means that every month more than 1,000 families must live with the tragic consequences of drunk driving. Since MADD was founded in 1980, alcohol-related fatalities have declined by more than 40 percent, but progress has stalled in recent years.

That is why MADD launched a major new offensive in the war against drunk driving -- the *Campaign to Eliminate Drunk Driving*. By intensifying efforts, creating alliances and developing innovative solutions, together we can take the fight against drunk driving to a new and unprecedented level.

Through MADD's *Campaign to Eliminate Drunk Driving*, the possibility of eradicating a primary public health threat that has plagued the United States for a hundred years is now within reach. Join us.

By joining the Campaign to Eliminate Drunk Driving, I pledge full support of:

- **Increased DUI enforcement** -- including twice-yearly crackdowns during major holidays and enforcement efforts such as sobriety checkpoints and saturation patrols in all 50 states.
- **Use of current alcohol ignition interlock technologies to reduce repeat offenses** -- working towards mandatory ignition interlocks for *all* convicted drunk drivers. A key part of this effort is working with judges, prosecutors and state driver's license officials to stop the revolving door of repeat offenders.
- **Exploration and development of advanced vehicle-based technology** -- devices to detect if a driver has an illegal alcohol level and to prevent that driver from operating the vehicle.
- **Public support from you and other concerned citizens nationwide** -- led by MADD, its affiliates and members.
