Presenters: all attendees

Additional Information:

The Lake County GIS Users Group normally meets at the Lake County Administrative Building in Tavares. Meetings typically draw representatives of several Lake County agencies, municipalities, and associated entities. Although open to all, there is a restriction against marketing at the meetings. Activities may include data sharing, tips and tricks, project presentations, product demonstration, GIS related workflow improvements, general coordination efforts, and educating others on the tremendous benefits GIS delivers to the county through innovative solutions.
